Dave and Lee,

I want to share with you [The Nature Conservancy's statement on the Pebble Mine FEIS](#). We remain highly concerned with the mine and the permitting process. We raised these concerns during the review process but still found the FEIS lacking. We urge EPA to use your veto authority to deny a permit to the mine.

Can you please share this with Matt Leopold? I don't have his contact information.

Please let me know if you have any questions and have a good weekend.

Jimmy
